# Hex IoT

The Sixdime Hex IoT is a modern Industrial HMI offering capabilities to integrate equipment and plant information with the Enterprise IT. With running a full fledged operating system, the device enables Rich Media delivery along side mission critical industrial native and web applications.

## Specifications:

- 10.1 Inch Resistive Touch screen, 1024×600 high resolution, Power & display control settings
- Quad core Cortex-A72 (ARM v8) 64-bit SoC @ 1.5GHz ,2GB SDRAM
- Communication Ports : USB Version 3.0 (3), Ethernet (2)
- Wireless communication : Wi-Fi 2.4GHz IEEE 802.11ac, Bluetooth 5.0
- Power Supply : 5V DC, 2A max.
- Product size : 280 mm x 240 mm x 70 mm (LXWXB)
- IoT Ready : Communication through MQTT, REST, OPC
- Rugged enclosure made by ABS plastic material
- Linux & Android OS
